

Customer Information

Allergen Advice: All our products are prepared in environments that handle allergens. We take every reasonable precaution to reduce the risk of cross-contamination, but we cannot guarantee any product is allergen-free.

Across our estate, we offer a variety of products, including scooped ice cream, coffee made using semi-automatic, automatic, and traditional machines (all of which use milk as standard), and fried items prepared in shared fryers. We take all reasonable steps to reduce the risk of allergen cross-contact and are committed to providing accurate information about our ingredients. However, as we use shared equipment and preparation areas, we cannot guarantee that any product is entirely free from allergens, even if a specific product does not contain a particular allergen. Please speak to a member of staff if you have any concerns or require further information.

The following pages contain essential information to help you make an informed decision about purchasing items from our establishment.

All **unwrapped** food products and drinks prepared in our café or kitchen are included in this information pack. **Pre-packaged** products will show allergen information on their packaging.

Unless otherwise specified, all items are prepared according to standard recipes. If you wish to add extra items.

Customer Information

Unless otherwise specified, all items are prepared according to standard recipes. If you wish to add extra items, such as toppings or syrups, please refer to the specific product for additional details.

Calorie information is based on an average adult serving size for each dish or drink unless stated otherwise. While this information is accurate at the time of publication, variations in product preparation may affect calorie counts.

Adults need around 2000 kcal a day
Vegan products may not be suitable for persons with allergies.
